

Guard User Manual

How to use the Predio app to run the gate, step by step. You work from your phone. This is the complete written reference. Predio Help (the ✦ at the top) walks you through these same tasks interactively.

predioapp.com · bilingual EN / ES

Run any building. From one app.

predioapp.com

1. Sign in

1. Open **Predio**, enter your **email** and **password**, tap **Sign in**.
 2. Change language any time with the **EN / ES** pill at the top.
-

2. Your four tabs

At the bottom: **Gate** · **Rounds** · **Log** · **Shift**. Your **profile** (language, your **Manual**, help, sign out) opens from the **avatar** at the top-left.

3. Clock in / out (Shift)

1. Tap **Shift**.
 2. Tap **Clock in** when your shift starts (and **Clock out** at the end). Your times are recorded in the Log.
-

4. At the gate

Scan a pass / package / entry 1. On **Gate**, tap **Scan**. 2. Point the camera at the resident's **QR pass**, a package label, or an entry code — Predio detects what it is. 3. For a valid pass it shows the visitor, unit and time window. Choose **Entry** or **Exit**, tap **Add photo** if you want, and **Confirm**. The resident is notified their guest arrived.

Walk-up (visitor without a pass) 1. On **Gate**, tap **Walk-up**. 2. Search or type the **unit**, enter the **visitor's name**, tap **Add photo**. 3. Tap **Notify resident** to check them in.

Package 1. Tap **Package**, log the delivery → the resident is notified.

Incident 1. Tap **Incident**, choose a type (if **Other**, type a short description), add a photo and notes. 2. **Escalate to admin** if needed.

5. Rounds

1. Your supervisor prints **QR checkpoint tags** and places them around the property.

2. On a round, tap **Rounds** → **Scan points** and scan each tag.
 3. Each scan is time-stamped and location-tagged, building a verifiable patrol log.
-

6. Log (Bitácora)

Tap **Log** to see the shift's activity (scans, entries, packages, incidents, clock-in/out). Use the **date filter** to view a previous day.

7. What you see

Only the gate tools and the visitor log — never resident finances. Predio is the digital logbook; you open the gate by hand.

8. Predio Help

Tap the ♦ at the top and ask — it walks you through any gate task in your language.
