

Maintenance User Manual

How to use the Predio app to do your maintenance work, step by step. You work from your phone. This is the complete written reference. Predio Help (the ♦ at the top of any screen) walks you through these same tasks interactively.

predioapp.com · bilingual EN / ES

Run any building. From one app.

predioapp.com

1. Sign in

1. Open **Predio**, enter your **email** and **password**, tap **Sign in**.
 2. To change language any time, tap the **EN / ES** pill at the top.
-

2. What you'll see

You land on **My Jobs**. Your tabs at the bottom are **My Jobs** and **Tasks**.

- **My Jobs** — the tickets assigned to you, in three groups: **Queue** • **In progress** • **Done**.
 - If you're a maintenance **manager**, you also see a **Board** with every ticket and can assign work to others.
 - Your **profile** (language, your **Manual**, help, sign out) opens from the **avatar** at the top-left.
-

3. Work a ticket, step by step

1. On **My Jobs**, tap the tab (Queue / In progress) and open a ticket.
 2. Tap **Start** when you begin the work — the resident gets a notification.
 3. Talk to the resident in the **Conversation** tab (they can see this — e.g. "on my way," "where exactly is the leak?").
 4. Use the **Internal notes** tab for your team (residents never see these). To pull in a teammate, **@mention** them — they get a push notification.
 5. When you finish, tap **Resolve**. - If your building requires a closing photo, tap **Add photo** and attach the **after** photo first, then Resolve.
 6. The resident is asked to confirm it's fixed. If they don't confirm within **3 days**, the ticket auto-completes.
-

4. Set priority (managers)

If you assign/triage, open a ticket and set its **Priority** (Low / Normal / High). A worker cannot change priority — that's a manager step.

5. Tasks

Tap **Tasks** to add your own to-dos — inside a job or standalone — and set a **reminder** (you get a push at the time).

6. What you can and can't see

You see **only your assigned jobs and their conversation** — never financials, settings, or other units. That's by design.

7. Predio Help

Tap the ♦ at the top and ask in plain language — *"how do I resolve a ticket?"* — and it walks you through the exact step. It teaches and answers; it never changes anything for you.
